**EUROPE :
LEADER IN AN
ETHICAL DEBATE ON
SCIENCE AND
TECHNOLOGY ?**

EUROPE HAS THE POTENTIAL OF A WORLD DEBATE ON TECHNOLOGY

If we see the new developments in
technology: Artificial intelligence, Robots.

We will not be able to stop those
developments

But an intelligent debate on ethics of
science and technology is needed.

Europe has the ability and the potential to
launch this world debate

**PART 3 :
AUROVILLE AS A
NEW SPIRITUAL
PARADIGM**

AUROBINDO & THE MOTHER : A NEW SPIRITUAL PATH

Aurobindo and The Mother have created a new spiritual paradigm of *Spirituality beyond religions.*

Auroville is the most advanced example of spirituality beyond religions.

« Intergal yoga » is the way proposed.

This is a very important step forward in the history of Humanity

A VERY IMPORTANT SPIRITUAL INNOVATION

It is very important to understand the depth of this innovation which corresponds to the search of millions of citizens around the world.

But we have perhaps forgotten the importance of this innovation.

HOW TO HELP AUROVILLE'S CONSTRUCTION

What can we do to foster and help the construction of Auroville ?

1. First go deeper into the depth of this spiritual project.
2. What does mean the coming down to Earth of the Supramental ?
3. How does it change our concrete lives ?

I HAVE A DREAM

I have a dream:

At the occasion of the 50th anniversary. I dream that a long ceremony of prayer and connection with The Mother and Aurobindo. To ask the to help powerfully a new phase of construction

And a better governance to reach this/Their aim: AUROVILLE
